Integrated Development & Capital Project Finance Partner

Transnova Group builds, originates, structures, and co-develops bankable projects across Africa, Middle East, and North America; mobilizing global institutional capital to deliver scalable real assets across infrastructure, urban development, supply chain, and agro-industrial systems.

— COMPANY PROFILE

Transnova Group Inc. is an integrated multinational development and capital structuring corporation focused on advancing high-impact infrastructure, urban development and real asset investments.

The company structures and facilitates large-scale, bankable projects, mobilizing global institutional capital to deliver scalable solutions across high-growth markets and integrated supply chain ecosystems.

Operating across Africa, North America, and the Middle East, Transnova bridges capital, project development, supply chain systems and execution; aligning stakeholders to deliver infrastructure that supports long-term economic growth.

— MANDATE

Transnova's mandate is to develop and deliver commercially viable, large-scale infrastructure projects that drive industrialization, trade expansion, and economic resilience.

Our Projects and developments are transformed from early-stage opportunities into investment-ready structures aligned with international investor and Development Finance Institution (DFI) standards.

— WHAT WE DO

We deliver across four core service areas designed to drive scalable impact and long-term value.

Infrastructure & Real Asset Development

We develop large-scale infrastructure and real assets across urban, industrial, and agro-industrial sectors. With focus on integrated systems that connect production, logistics, and markets.

Project Origination & Development

Identify and advance high-impact opportunities across key sectors, progressing projects from concept through feasibility, structuring, and development readiness.

Project Finance & Capital Mobilization

Structure and mobilize capital through debt, equity, and blended finance solutions. Engagement with institutional investors, DFIs, sovereign partners, and private capital providers to build resilient capital stacks.

Trade & Value Chain Integration

Facilitation of trade finance solutions and development of infrastructure that strengthens supply chains, enhances cross-border trade, and supports regional and global market integration.

— INVESTMENT APPROACH

We apply a displined investment framework focused on delivering institutional-grade results:

Bankability	Structuring projects to meet global investment standards and attract institutional capital
Scalability	Developing platforms capable of regional expansion and long-term growth
Capital Efficiency	Aligning financing structures with project economics and risk profiles
Risk Mitigation	Integrating financial, operational, and political risk management strategies
Strategic Alignment	Partnering with governments, DFIs, and private stakeholders to ensure execution success

STRATEGIC FOCUS Transnova focuses on building economic infrastructure that supports: • Industrial production and processing capacity • Urban development and population growth • Trade corridors and logistics systems • Integrated agro-industrial value chains • Energy and utility infrastructure	REAL ASSETS FOCUS We develop and invest in real assets across multiple sectors with focus on: • Urban and residential developments • Industrial and processing facilities • Agricultural production and land-based assets • Transport and logistics infrastructure • Trade-enabling infrastructure and platforms	GEOGRAPHIC SCOPE Our primary focus is on the high-growth markets across Africa, Middle East, and North America, supported by global capital networks, strategic international partnerships and our grounded presence in the heart of Canada’s Business City - Toronto Financial District, The Bay street Corridor.
--	--	---

— ESG & DEVELOPMENT IMPACT

Transnova integrates environmental, social, and governance (ESG) principles aligned with international standards and DFI frameworks across all projects.

Community Infrastructure	We make sure Education and Healthcare facilities are embedded within project developments.
Sustainable Land Use	Reasonable agricultural systems, resource management, and environmental stewardship.
Economic Development	Job creation and long-term local economic value generation.
Capacity Building	Support for local industries and local workforce development and trainings

— COMPETITIVE POSITION

Transnova operates as an integrated development and project finance corporation bridging the gap between project origination, capital mobilization, and execution. Our positioning is defined by:

- Strong project structuring capability
- Access to global institutional capital
- Multi-sector infrastructure development expertise
- Alignment with international investment and ESG standards

VISION

To build a connected, and competitive global economy through strategic investments, infrastructure development, and integrated capital and trade solutions.

MISSION

To build critical economic infrastructure by developing and mobilizing capital into large-scale projects that unlock investment, accelerate industrialization, and drive long-term economic transformation.

Transnova Group Inc. is an integrated development corporation and capital project finance partner. The firm builds, originates, structures, and co-develops bankable projects, mobilizing global institutional capital to deliver scalable real assets across infrastructure, urban development, and agro-industrial systems - advancing the continent's role in global production, trade and value chains.
